PROFILE

Execution-focused problem solver with a track record of owning ambiguous, cross-functional projects end-to-end from building operating structures and managing stakeholder relationships to tracking multiple moving pieces to a clean finish. Comfortable navigating ambiguity, coordinating across teams with no formal authority, and turning loosely-defined problems into structured, on-track execution. Strong analytical foundation in Python, SQL, and data-driven decision-making.

LEADERSHIP & EXTRACURRICULAR

International Academic Conference - Host & Coordinator

Feb 25 – 27, 2026

- Owned cross-functional coordination of speakers, delegates, and organizers across a fast-moving 3-day event, resolving logistical ambiguity and bottlenecks in real time.
- Acted as the point of contact across multiple moving teams with no formal authority over them, keeping the schedule on track under shifting last-minute constraints.

Science Day Exhibition - Budget & Logistics

Feb 2025 – Feb 2026

- Owned budget and logistics end-to-end across 2 consecutive years for an interactive event reaching 2,000+ school students.
- Planned spend, vendor coordination, and on-ground execution independently, then built a repeatable process from year one's learnings to run year two more efficiently.

Human Cafe - Member to President

Sep 2021 – May 2024

- Progressed from Member to Vice President to President of a peer mental-health listening club; owned 300+ one-on-one peer support conversations and led awareness campaigns reaching the wider student body.
- Built and scaled the club's internal structure and volunteer training as it grew, taking on increasing ownership at each stage rather than staying in a single fixed role, also coordinating logistics across teams for every campaign.

PR Coordinator - Enactus, Student Council & Departmental Council

2022 – 2024

- Owned sponsorship outreach across 3 organizations approached 100+ prospects and closed 30 sponsorships (~30% conversion).
- Managed relationships end-to-end from first cold contact through negotiation to final sign-off, working across multiple stakeholders and priorities in parallel.

PROJECTS & EXPERIENCE

VariantLens - AI-Assisted Genomic Research Intelligence Platform ([Link](#))

Jul 2026

Python · Flask · Pandas · Groq LLM · JavaScript · GWAS Catalog · dbSNP

- Built a working product prototype end-to-end, based on evidence retrieval workflow enabling natural-language exploration of 3,447 variant-trait records across 19 trait groups.
- Integrated a Groq-hosted LLM with citation-based grounding and guardrails; built Explore, Compare, and Data Lineage features for transparent, end-to-end research workflows.

LLM Evaluation, Health & Nutrition Claims

Jun 2026

Python · Groq API · Prompt Testing · Structured Documentation

- Designed and ran a structured 33-prompt evaluation process across, high-stakes medical claims, and informal/code-mixed inputs, built a Python testing pipeline to run and log prompt batches at scale scoring outputs against NIH, Cochrane, ACOG, and AHA sources and then translating findings into product-facing QA recommendations

Dissertation Project, Bioinformatics Centre, SPPU

Aug 2025 – Jun 2026

GROMACS · Molecular Dynamics · Python · Structural Analysis

- Owned 200 ns molecular-dynamics simulations of hemoglobin proteins from 4 species end-to-end and synthesized 5 structural parameters to compare stability profiles. Identified timelines in 2 species that indicated a potential oxygen-dissociation event.

Bioinformatics Intern (OJT), GeneArche, Pune

May 2025 – Jul 2025

Python · SQL · GWAS Catalog · dbSNP · 1000 Genomes

- Owned data consolidation and QC end-to-end for a variant-phenotype database covering 19 health-related traits, cross-validating public genomic data and documenting reproducible workflows for team use.

EDUCATION

MSc Bioinformatics - Savitribai Phule Pune University

2024 – 2026

CGPA 8.09 · DBT Scholar (Govt. of India) · Qualified IIT JAM, TIFR GS & GAT-B

BSc (Hons.) Biomedical Science - University of Delhi

2021 – 2024

CGPA 8.12

Delhi Public School, Nigahi

2019

12th-88.6, 10th-10 CGPA

SKILLS

Execution & Ownership: Cross-Functional Coordination · Stakeholder Management · Project Tracking & Reporting · Process Design · Budget & Logistics Ownership · Ambiguity Navigation

Product/AI: GenAI & LLM Evaluation · Prompt Engineering · AI QA/Bulk Testing · Product Prototyping · Research Synthesis · Technical Documentation · Agile/Scrum Fundamentals · Software Testing

Technical: Python · SQL · Pandas · Flask · Excel / Google Sheets · MS Office Suite · Canva
